

LOUISVILLE JOURNAL

PRINTED AND PUBLISHED BY
J. H. HENDERSON, & OSBORNE,
JOURNAL OFFICE BUILDING,
Green street, between Third and Fourth.

Daily Journal, delivered in the city, \$2.00 per week, \$10.00 per month, \$30.00 per quarter, \$100.00 per annum, in advance. Single copies, 5 cents. For the country, by mail, \$2.50 per week, \$10.00 per month, \$30.00 per quarter, \$100.00 per annum, in advance. Single copies, 5 cents. For the country, by mail, \$2.50 per week, \$10.00 per month, \$30.00 per quarter, \$100.00 per annum, in advance. Single copies, 5 cents.

TERMS OF ADVERTISING.
One square, containing ten lines of type, for the first week, \$1.00; for each subsequent week, 50 cents. For the month, \$3.00; for the quarter, \$7.50; for the year, \$25.00. For the country, by mail, \$4.00 per week, \$15.00 per month, \$45.00 per quarter, \$150.00 per annum, in advance. Single copies, 5 cents.

One of Queen Victoria's female secretaries is a Wesleyan Methodist. She was taken sick lately, and certain palace officials of the High Church, partly ordered her discharge, partly, in a fit of religious intolerance, refused to receive her. Her Royal Mistress heard of the circumstance, and instantly caused the girl to be treated with the utmost kindness; while her persecutors became afflicted with the complaint known as "a flea in the ear." The Christian Advocate (London) is the historian of this affair.

A Washington letter says it is believed that the position Minister Clay has taken, while not exactly recommended or approved by the State Department, has been winked at by Mr. Seward, partly with the hope of giving Clay for his contemptuous letter, written some time before Clay's departure for Russia, by the excitement his objectionable course will create, and partly to seriously annoy France and England with Russia, so as to prevent England from the talked-of interference in our affairs.

FRUITS ON THE GOVERNMENT.—A series of unaccountable frauds have been perpetrated on paymasters by Lawrence J. Steel, an excellent, and one of the most accomplished swindlers yet discovered. The scenes of his operations have been Washington, Harrisburg, Philadelphia, Baltimore, New York, and Boston, where he has secured the receipt of forged certificates as to the correctness of forged accounts. He is now in arrest in New York, awaiting his trial by the civil authorities.

SINGULAR.—About the first of July, Dr. McGill, of Nashville, says the Union, in operating upon the head of a female patient, extracted three lumps, each about the size of a nut. One of the lumps was removed, and the other two, enclosed with a light lid. A week ago, upon examination, it was found to be a living worm, and was still alive yesterday. The Doctor intends to keep it and see how much longer it will live, or what transformation may take place.

ON AN INDICATION OF THE DISSECTION.—The rapidly spreading among the subjects of "King Jeff" was quoted what the Mobile (rebel) News of the 31st says: "We have a multitude of reports of the people in many places in Alabama and Mississippi; some of them too disgraceful to publish. A portion of our people have gone stark mad. They are banished Southerners and recent Confederates."

THE RAILROAD CONVENTION AT NIGARA.—Falls resulted in the breaking up of the combination under which fares have been arranged. The order now is, every line for itself. A reduction in fares follows, as a matter of course. The fare from Buffalo to Chicago has already been cut down. Freight and passenger trains are now running regularly over the entire length of the Baltimore and Ohio Railroad, between Washington and Wheeling and Baltimore.

FORTUNATE DRAFTED MEN.—The drafted regiments from Pennsylvania and Ohio, who have been in service since last fall, seem to have passed through the rough life of a nine months' campaign with singular good fortune. But few of the regiments have been in action, and all have escaped without the ravages of camp diseases, many returning without the loss of a man.

VESSELS ARE BEING LOADED WITH PROTEIN.—In the harbor of Cleveland, Ohio, to sail direct for Europe. Parties in that city are making arrangements to establish an "Oil Line" of vessels between Cleveland and Europe, with a view to avoid the expenses and delay consequent upon transshipments on other routes.

Volunteering in New Jersey is said to be going forward very briskly. In Newark more than half the quota of nine hundred men has been raised. The persons volunteering are principally members of the nine months' regiments recently mustered out of service.

A letter has been received in Washington by way of flag-of-truce from the James River, and that David Crockett is still in Richmond, and that doubts were now freely entertained of his recovery. He has been ill more or less for several months.

It is understood in the Army of the Potomac that Lee has been reinforced by Bishop-General Volk's entire division, but at the same time Lee has sent a division to help Beauregard at Charleston. None of Lee's infantry are north of the Rapid Ann.

EXPLOSION OF A LOCOMOTIVE.—Last Saturday afternoon, while locomotive No. 201 was standing on the Pennsylvania Railroad track at Parkersburg, the boiler exploded with a terrific report, killing the engineer, Mr. John Wilson, a resident of Colfax.

A private letter from Morris Island, dated August 1, says: "I am just reporting the receipt of a reinforcement of between 3,000 and 5,000 troops have arrived outside, and that they are to be landed to-night on the south end of Folly Island."

Judge Advocate General Holt decides that any man abroad or at sea, who may be drafted, is not to be regarded as a deserter in the spirit of the law until he is notified of the fact that he has been drafted.

Hiram Brown, formerly Editor of the Fairfax County (Virginia) News, was last week on his way from Gordonsville, by the Federal troops, and is now held as a prisoner.

Bayard Taylor left the Russian Court immediately after the arrival of Cassius Clay, and is now spending a few weeks with his wife's relatives at Götting, Germany.

DECEASED.—Col. Van Traher, Third Indiana, died at Ottawa, Illinois, on Friday last. He was a gallant officer, and defeated the Texas Rangers in November, 1861.

An attempt was made by a strange steamer to overhaul the steamer Arago on her outward passage to Port Royal, but the Arago proved too fast a sailer.

Mr. Vallandigham has left the Clifton House, Niagara Falls, and retired to his expensive residence a few miles distant from the Falls.

THE NIGARAGUA STEAM CANAL.—The Niagara ship canal is to be constructed by the patronage of Louisville Napoleon; the engineers are already at work, and Prince Marat is to be President of the new company. A correspondent of the New York Journal of Commerce, writing from Chinandega, says Mr. Edward Loos, one of the directors of the new company, which has recently been organized, is already at work, and Prince Marat is to be President of the new company. THE ARMY OF THE CUMBERLAND.
WINCHESTER, TENN., Aug. 9, 1863.

I had the pleasure of witnessing, on the 7th inst., in the camp of the 10th Ohio, Col. Burke, the distribution of badges among those of the regiment whose services on the field of battle have earned them the proud distinction of a medal on the "Roll of Honor."

The badge is a laurel wreath worked in orange-colored silk on a piece of green cloth, and is worn on the left breast. It is a badge of honor, and is worn by those who have distinguished themselves in battle. It is a badge of honor, and is worn by those who have distinguished themselves in battle.

TELEGRAPHIC NEWS.

EVERING DESPATCHES.

Our Special Despatches.

(Special Despatches to the Louisville Journal.)

WASHINGTON, August 15.
All reports telegraphed from this city about important conferences of Governors and Senators with the President about an important military demonstration are wholly the work of imagination and have no genuine basis. In fact the visits of Governor Tolson, Senator Harris, and others are here at the same time, were accidental and not by any agreement.

Secretary Chase has made the following declaration in regard to the redemption of the public debt. All coupons and registered bonds forming a part of the permanent loan of the United States will be redeemed in full. The twenty-year bonds, being redeemable any time within twenty years after the lapse of five years, belong to the permanent loan, and so also do the twenty-year bonds of July 17, 1851, into which the three-year 7-30s are converted. All obligations will be paid in full.

The 7-30 bonds and notes forming part of the permanent loan, with the privilege of conversion into gold, are in sums not less than five hundred dollars. The interest on these bonds is paid in gold, and the principal is paid in gold, if the holders prefer payment to conversion in U. S. notes.

The Agricultural Department is busy at present in preparing the usual monthly reports of crops and weather. The returns are generally very favorable, although some sections of the country are suffering from drought. General Meade arrived in town last evening, and had an interview with the President, Secretary of War, and the General-in-Chief. He returns to the front immediately.

The telegraph telegraphed from this city that General M. O'Connell had tendered his resignation as General-in-Chief of the Army. General Curtis, late of the Department of the Missouri, is in town. He is accompanied by several of his staff.

The Government has under consideration the proposition of Gen. Rosecrans to organize a division of mounted men for service in the West. The proposed division is to be composed of volunteers, and is to be organized in the West. The Government has under consideration the proposition of Gen.
